

# ADMN MOBILE SUBSCRIPTION CHURN PREDICTION

---

ADMN5016: APPLIED ARTIFICIAL INTELLIGENCE AND  
MACHINE LEARNING

MARIA ISABEL DIO GRAU  
APRIL 20, 2022

# Outline

---

**Dataset Description**

**Business Case**

**Classification Models**

**Model Comparison**

**Notebook Demonstration**

# Dataset Description

---

01

3,333  
samples

02

Account and  
activity  
information

03

Churn vs.  
not churn

04

Classification  
model

# Business Case

---

Costs less to retain customers than to acquire new customers

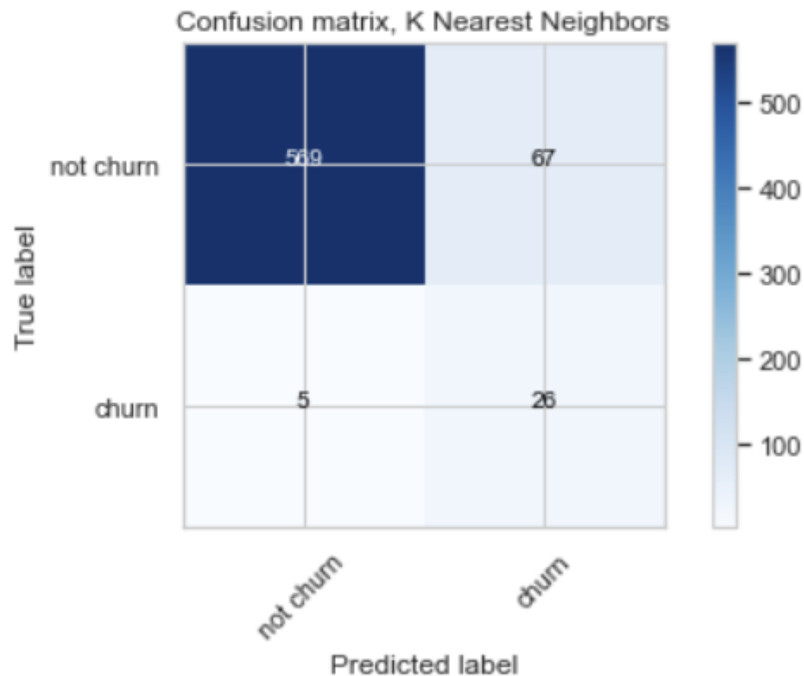

**\$425 to acquire a new customer\***

If a customer is predicted as likely to churn, the company can take corrective actions to improve its services.

Improve brand loyalty and strengthen brand reputation

*\*US\$340, T-Mobile 2017 data*

# K Nearest Neighbors

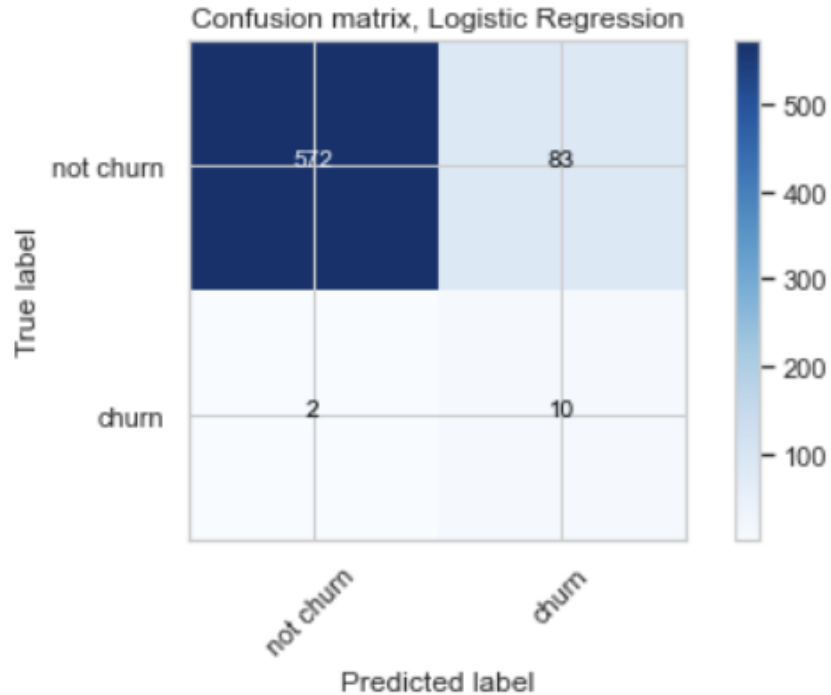

**Accuracy: 89.2%**

**Recall: 28.0%**

**Precision: 83.9%**

# Logistic Regression

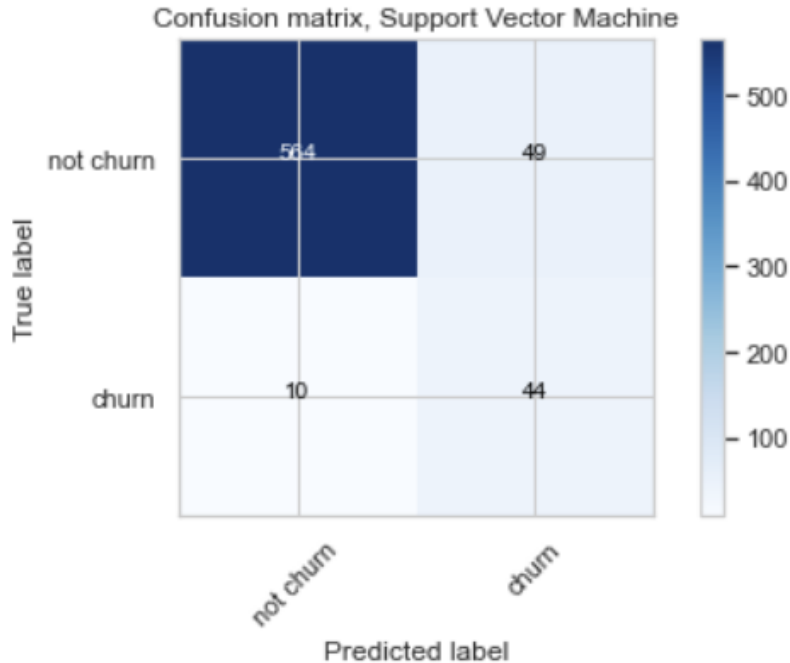

**Accuracy: 87.3%**

**Recall: 10.8%**

**Precision: 83.3%**

# Support Vector Machine

**Accuracy: 91.2%**

**Recall: 47.3%**

**Precision: 81.5%**

# Decision Tree

**Accuracy: 90.9%**

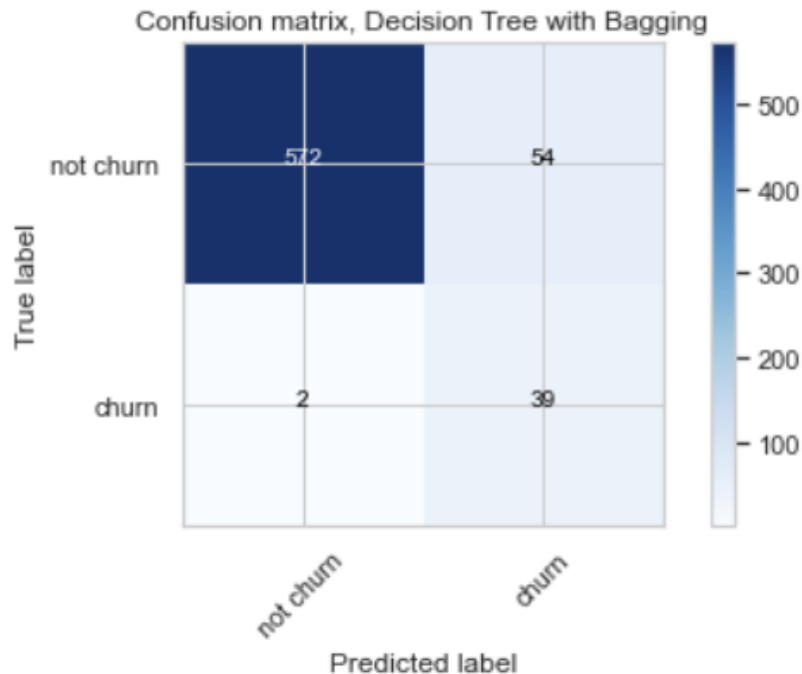

**Recall: 40.9%**

**Precision: 86.4%**

# Decision Tree with Bagging

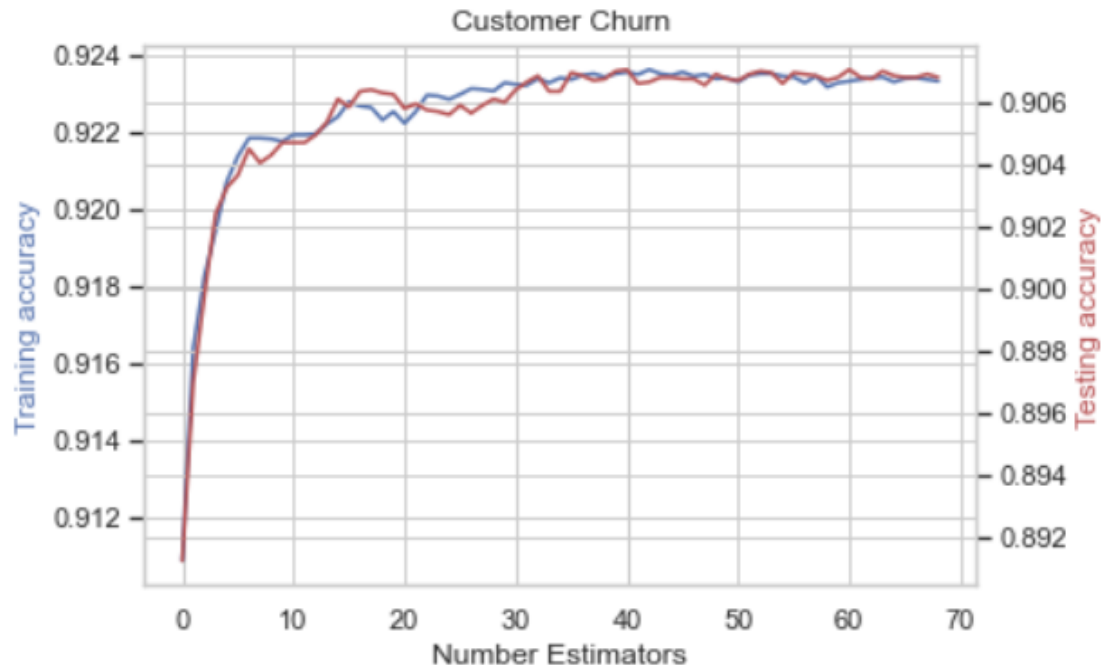

**Accuracy: 91.6%**

**Recall: 41.9%**

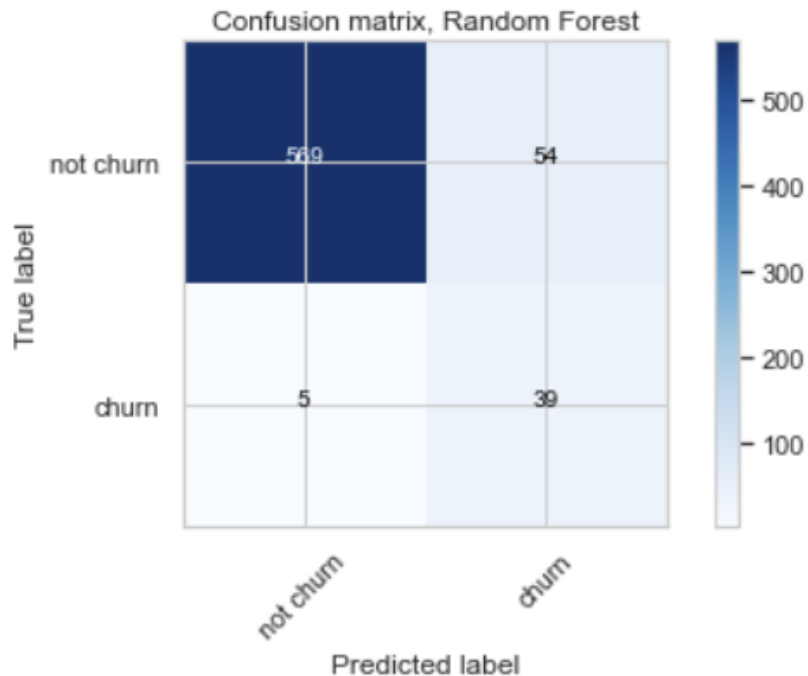

**Precision: 95.1%**

# Decision Tree with Bagging

# Random Forest

**Accuracy: 91.2%**

**Recall: 41.9%**

**Precision: 88.6%**

# Model Comparison

---

	accuracy	precision	recall	F1
<b>KNN</b>	0.892054	0.838710	0.279570	0.419355
<b>Logistic Regression</b>	0.872564	0.833333	0.107527	0.190476
<b>SVM</b>	0.911544	0.814815	0.473118	0.598639
<b>Decision Tree</b>	0.908546	0.863636	0.408602	0.554745
<b>Decision Tree with Bagging</b>	0.916042	0.951220	0.419355	0.582090
<b>Random Forest</b>	0.911544	0.886364	0.419355	0.569343

# Model Comparison: Further Analysis

---

## RECALL

If the churn rate were higher, then recall would be a better metric to evaluate the models

# Model Comparison

# Model Comparison: Further Analysis

---

## RECALL

If the churn rate were higher, then recall would be a better metric to evaluate the models

## DIMENSION REDUCTION

Reduce complexity

## BOOSTING

Reduce bias

## BAGGING

Bootstrap all models

# ADMN MOBILE SUBSCRIPTION CHURN PREDICTION
